

Start Your Journey Here at Hungkuang University

Choosing the right university is a big decision. With four colleges, seven research institutes and 21 departments, we know that you will find a program that is right for you at Hungkuang University.

At Hungkuang University, we believe that every student can reach their educational goals.

Comfortable Learning Space

01 Can a university help you to realize your dreams?

With a wide range of majors and departments to choose from, Hungkuang University will help you discover your path and achieve your dream. Over the years, we have developed exciting and challenging programs, built a modern teaching environment with state-of-the-art equipment and facilities, and established relationships with many industry leaders. Our promise is "Graduation = Employment." By attending Hungkuang University, your dream will no longer be just a dream, it will become a reality.

Diverse Student Clubs

Multi-faceted Communication

02 Applying what you learn

Hungkuang University continues to be a leading school in Taiwan by understanding current needs, anticipating future challenges, and staying abreast of industry trends. We apply what we learn to develop professional skills in our graduates to make them competitive in diverse disciplines. Through collaborations with industry, we connect our graduates to workplaces and equip them to fulfill their social responsibilities. At Hungkuang University, "Applying what you learn" is not just a slogan, but our approach to success.

03 Helping students to realize their dreams

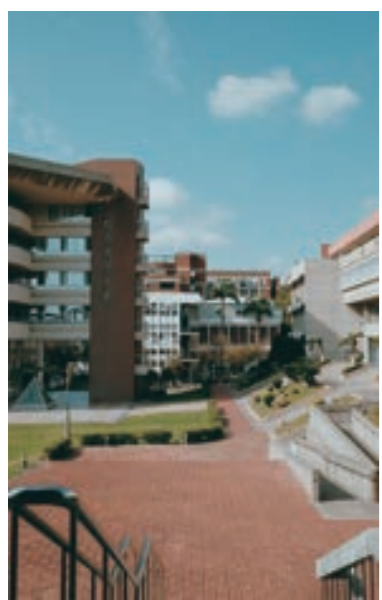

Hungkuang University supports students on their journey. With a focus on pursuing higher education, building confidence, and providing opportunities to practice newly-acquired skills, Hungkuang University guides each student toward their dream. As they learn and grow, our students are equipped to meet the needs of society. At Hungkuang University, we are committed to bringing out the best in our students to ensure their future success.

How to choose the right university for you?

Hungkuang University is recognized internationally for the quality of our programs and our high-caliber graduates. We have won numerous awards nationally and internationally and continue to rank highly among technical and vocational universities.

But more importantly, we are committed to helping you to realize your dreams and succeed in the future!

Well-rounded Educational Environment

Overseas Internships + Dual Degrees

- Through internships and dual-degree program opportunities in the United States, Italy, Australia, New Zealand, Japan, Malaysia, Singapore, and Vietnam, students experience exciting work placements and develop a global perspective.

Graduation = Employment

- Every full-time student participates in on-campus and off-campus internships, preparing them to seamlessly transition into the workplace. Our graduates have a 90 percent employment rate which is the best evidence of our promise, "Graduation = Employment."

Awards and Recognition

- Hungkuang University is the only university in Taiwan to win three awards for our implementation of Sustainable Development Goals (SDG).
- Our student enrollment ranks first among private universities in central Taiwan.
- According to the 2022 Common Wealth Magazine USR University Citizen Ranking, we are in the top three private technical and vocational universities in Taiwan!

Investments and Achievements

- Each year, we invest significantly in our students, faculty, programs and facilities.
 - Hungkuang University received the largest subsidy from the Ministry of Education's Higher Education Intensive Cultivation Program among private universities in central Taiwan.
 - Chefs from Michelin-star restaurants, world baking champions, celebrity makeup artists and other industry experts are regular guest lecturers on our campus.
- At Hungkuang University, we are able to host 35 national-level professional certifications.

Developing Top Talent

- One in ten nurses in Taiwan graduated from Hungkuang University.
- At top medical centers across the country, one third of the directors of nursing are Hungkuang University alumni.
- Our alumni are leaders in top 100 companies, food factories, and renowned restaurants, both at home and abroad.
- Our graduates are repeat winners of the National Innovative Entrepreneurship Award.

Helping students to succeed.

Hungkuang University is the right choice for you. We are committed to supporting you in your educational journey!

SCHOLARSHIPS

- Study grants and student assistance.
- We provide financial assistance to help students with the cost of university. Our programs allow students to focus on their studies without having to be concerned about their financial situation.

EXTRA-CURRICULAR ACTIVITIES

- Diverse clubs enhance personal development.
- With almost 100 clubs on campus, we help students develop additional skills and expertise. Our clubs are run by teachers with specialized knowledge. We encourage students to participate in intercollegiate activities and events to enrich their life on campus.

STUDENT DORMITORY

- Smart-living facilities ensure a convenient lifestyle.
- Students can simply swipe their student ID card to access goods and services such as the cafeteria, fitness center, gaming rooms, vending machines, printers and photocopiers.

ON-CAMPUS DINING

- Diverse food means balanced nutrition.
- The food court on campus provides a healthy selection of dining options. Food preparation is supervised by professional nutritionists, ensuring access to healthy meals.

TRANSPORTATION

- Commuting is easy.
- Buses 300 - 310 stop in front of the campus main gate providing many options to travel around Taichung quickly and safely.
- Approximately 10 minutes by car from Taiwan Railway Shalu Station.
- Approximately 25 minutes by car to the Taichung High Speed Rail Station.
- Proximity to the National Highway No. 3 Interchange and Taichung International Airport.

Learning doesn't only happen in school.

Our teaching and learning extend beyond the university and into the community. With our support, students go from campus to the workplace seamlessly.

Our students gain valuable experience in professional settings on- and off-campus.

On-campus facilities:

- HK Restaurant offers our students the chance to intern in a fully functional restaurant.
- Liu Lu Hotel provides our students with hands-on learning in the hotel industry.
- Red Master Bakery gives our students valuable experience in a bakery.

We have built relationships with domestic and foreign companies to provide internships to our graduates, helping them to seamlessly transition into the workplace.

Off-campus affiliated institutions:

- Kuang Tien General Hospital
- Liu Lu Hotel
- Hondao Elderly Welfare Foundation
- Taichung Hungkuang Non-Profit Kindergarten
- We manage more than 15 organizations including home-based and center-based childcare centers, parent-child centers, community childcare homes, and community colleges for the governments of Taoyuan City, Taichung City and Changhua County.

Choose Hungkuang University to be your trusted partner on your journey!
See you at Hungkuang University!

Hungkuang University offers a wide range of programs to help you become an expert in your chosen field.

Hungkuang University has four colleges • College of Nursing • College of Medical and Health Care • College of Human Science and Social Innovation • College of Intelligent Technology

Altogether, we have 21 specialized departments, seven research institutes, and one doctoral program (Nursing).

● Daytime ● Nighttime

College of Nursing

/ Department of Nursing (Master's and PhD Programs) D N

- We are the only university in Taiwan that offers nursing education in a Five-Year Junior College Program, a Post-Baccalaureate Program, a Bachelor's Program, a Master's Program, and a PhD Program.
- Our clinical skills center delivers innovative teaching by leveraging smart technologies (AR/VR/MR) to provide students with hands-on learning and real-world simulations. We provide a holistic, integrated nursing education.
- Our international internships and dual-degree programs ensure our competitive edge and cultivate a global perspective for our students and graduates.

/ Department of Post-Baccalaureate Nursing D

- This program provides non-nursing college graduates, who want to work in nursing care, the opportunity to pursue nursing skills and enter the profession.
- Our students intern at medical centers, providing a first-hand experience of nursing.
Credits for related courses taken before admission can be transferred in accordance with regulations.

College of Medical and Health Care

/ Department of Physical Therapy D

- Our department is known for specialization in long-term care rehabilitation, sports injury prevention, and the production of technological assistive devices.
- Our volunteer service team provides diagnosis and treatment of sports injuries. We organize visits and internships in long-term care institutions and assistive device factories to deepen students' knowledge and practical skills.
- We also offer and encourage students to obtain additional certificates in specialty areas.

/ Department of Nutrition (Master's Program) D N

- Our department cultivates expertise in the field of nutrition.
- Students receive training in clinical nutrition, group meal planning, community nutrition, long-term care, and biomedical nutrition. We provide an education that addresses the needs of today and tomorrow.

/ Department of Animal Healthcare D N

- We cultivate skills in animal health care, pet grooming, pet nutrition, innovative pet product design, and other technologies.
- In our classrooms, we offer courses such as specialized animal care.
- At competitions, locally and abroad, our students consistently win awards for their pet grooming skills.

/ Department of Speech Language Pathology and Audiology D

- Our department equips speech therapists and audiologists with professional knowledge and practical skills.
- With a focus on clinical practice, we train clinical speech therapy and audiology students to be outstanding professionals with a caring attitude.

/ Department of Senior Citizen Welfare and Long-term Care Business (Master's Program) D N

- The Ministry of Education ranks our department first among all universities.
- Our students gain long-term care work experience, enhancing their qualifications as professionals and are regularly hired upon graduation.
- Emphasis is placed on field practice, course work, innovative teacher-student self-directed learning, and social responsibility. Students cultivate a caring approach to seniors, equipping them with the skills to practice social work and to thrive as long-term care professionals.

/ Department of Health Business Administration (Master's Program) D N

- Recognizing the significant employment opportunities in the medical and health industry, our students train as health management experts and administrative management specialists.
- We offer various international internships and dual-degree programs to enable our students to experience different cultures and to develop a global perspective.
- Our department prepares students for certification as public health practitioners, ensuring our graduates realize their dream of working in public health.

① Pet Grooming Classroom ② Drone Lab ③ Master-level Faculty
④ Integrated Artificial Intelligence for Cross-disciplinary Applications

College of Human Science and Social Innovation

/ Department of Food Science and Technology D N Food Technology Program and Baking Technology Program

- Among the food-related institutes in Taiwan, we are the first college whose graduates can immediately apply for the food technician examination based on their diploma.
- Our teachers and facilities offer the ideal environment for learning food and baking technology.
- We are the only food department in Taiwan to be recognized by the international-level Taiwan Accreditation Foundation (TAF) and our Food and Cosmetics Quality Inspection and Analysis Center is certified by the Taiwan Food and Drug Administration (TFDA) of the Ministry of Health and Welfare.
- We're the only professional food science training school in central Taiwan.
- Thanks to our comprehensive, state-of-the-art facilities, we boast Taiwan's only Hazard Analysis Critical Control Point (HACCP) level food practice factory, biotechnology intermediate factory and health food practice factory among the nation's colleges and universities.

/ Department of Culinary Arts and Hotel Management D N

- Training includes Asian cuisine, Western cuisine, restaurant management, and tourism.
- Chefs from Michelin-star restaurants are regular guest lecturers.
- We ensure opportunities in professional learning spaces.
- Over 50 percent of our students participate in international internships.
- Internships, both at home and abroad, help our students grow holistically and enhance their employment options upon graduation.

/ Department of Applied Cosmetology (Master's Program) D N

- Our department is a leader in cosmetic innovation, research and development, and patented technology. We help the industry to improve technologically and to create value-add brands. Through international competitions, Taiwan's contributions to the cosmetics industry are promoted and recognized.
- We help students to develop professional skills as beauticians, to provide internships and to obtain international licenses.

/ Department of Hair Styling and Design D N

- We help our students hone their abilities and creativity to become leaders in the hairdressing industry.
- We train our students to participate in international competitions and offer exciting internships at home and abroad.

/ Department of Child Care and Education D N

- We provide theory and practical courses on infant care and special education to develop our student's professional skills, making our graduates highly employable.
- We provide financial support to our students for exchange and internship programs in the United States, Australia, Singapore, and other countries.

/ Department of Cultural Design and Marketing D N

- Staying on top of social and cultural trends, we offer integrated design and marketing majors.
- We have a major project where our students create a marketing campaign for a local community project or business. This project provides a practical application of their learned skills.
- Our students build their competency in innovation, life application designs and brand marketing.
- We provide international internships, short-term research postings, design exchanges, and multicultural experiences to expand our students' global perspective.

/ Department of Sports and Leisure D N

- Our leisure and recreation program and sports and health program prepare students for their license examinations and to be industry professionals. We offer internships that provide practical experience.
- Sports tourism is a focus of our program. Graduates of this program can become travel guides with expertise related to tourism activities including bicycling, mountain climbing and water sports.
- We develop sports and health professionals with expertise in coaching and fitness activities for seniors and children with a focus on healthy lifestyle choices.

/ Department of English for Global Communication D N

- We provide financial support for student exchanges and dual-degree programs in the United States, United Kingdom, Canada, Japan, South Korea, Thailand, Australia, and more.
- We hire industry experts to assist our students with off-campus internships.
- More than 50 percent of our teachers are foreign nationals.
- We actively collaborate with industry, inviting their experts to contribute to the curriculum. These relationships help our students transition seamlessly into future employment.
- Our foreign language center provides Japanese, Korean, Spanish, Thai, and Vietnamese language courses for students to become proficient in a second language.

/ Department of Multimedia Game Development and Application D N

- We train students in software development for multimedia animation, gaming, e-sports and other industries. Students apply their knowledge to design software applications, and we encourage creativity in their approach.
- Our state-of-the-art equipment allows students to put their skills to use.

College of Intelligent Technology

/ Department of Safety, Health and Environmental Engineering (Master's Program) D N Environmental Engineering Program, Green Technology Program, Occupational Safety and Health Program

- We train students in a wide range of fields, providing the opportunity to apply their knowledge in the areas of environmental protection, green energy and occupational safety.
- Our students graduate with the environmental protection and the occupational safety and health skills required to meet current and future societal and industrial needs.
- Certification is through the government, rather than industry, and our graduates are highly successful in finding employment.

/ Department of Medical Equipment Development and Application D

- Our department specializes in the principles and practical application for medical devices and instrument design. We also focus on medical device regulations and certifications, equipping our students for employment in the industry upon graduation.
- Through certification by the Institute of Engineering Education Taiwan (IEET), our program is internationally acclaimed, and our graduates are recruited for international studies and future employment.

/ Department of Intelligent Technology and Application D N

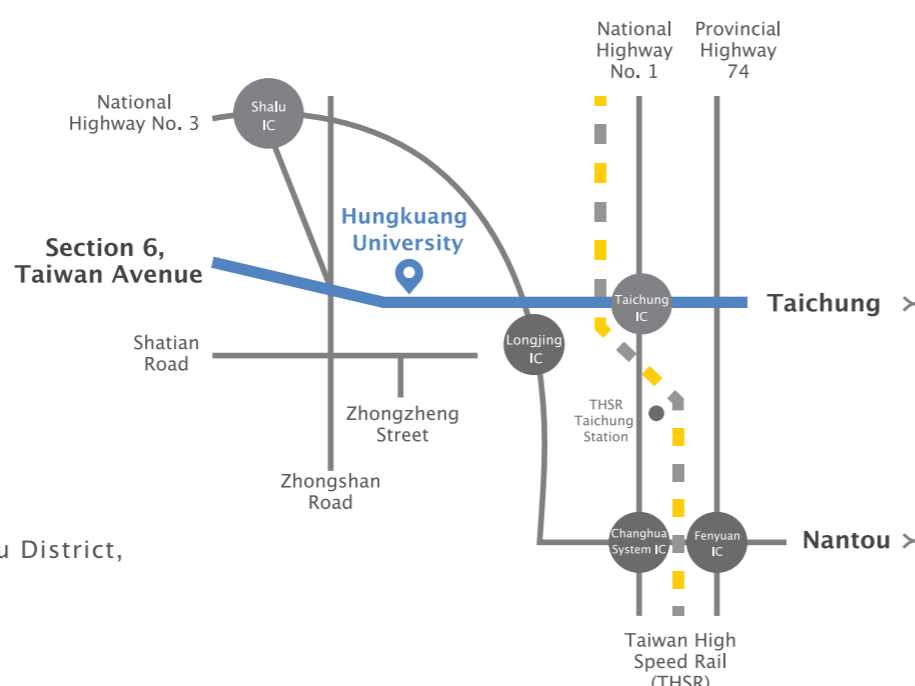

- Our students train in technology application, interdisciplinary integration, smart technology, and digital services.
- Guided by expert instructors, our students assemble and operate drones, including heavy-lift drones, to gain practical experience. Students obtain professional certification prior to graduation, making them ideal employees.
